Things to Consider When Using Granite Sinks

Daily Use: Clean your sink(s) daily using soapy water, ammonia-based cleaners and detergent with a wet cloth or a soft sponge. Apply a proper liquid or cream detergent to the surface with circular movement and clean with a wet cloth a few times a month to keep the natural appearance of the product and execute routine maintenance. Once the process is completed.

Heat - Hot Contact: Your sink is resistant to high temperatures. (It can withstand up to 180°C. The materials with high heat such as hot oil or pots that have just been taken off the stove should not be directly in contact with the sink.). It is recommended to use a trivet for your hot kitchen utensils.

Stains: Your sink is highly resistant to stains, in order for an easy cleanup it is recommended not to leave stains such as oil, tomato paste, tea, etc. for a long time. You can easily clean stains with liquid detergent and a wet cloth before they dry.

Scratch Resistant: Your sink is highly resistant to scratches. Avoid direct contact of your sharp kitchen utensils such as forks and knives with your sink. Do not cut or chop on the sink. Always use a cutting board.

Contact with Chemicals: Keep your sink away from solvents and chemicals with high solvent properties to extend the lifetime of your sink. You can safely use bleach on your counter/sink. It will not cause any damage.

Things to Consider When Using Granite Sinks

Cleaning: Avoid using cleaning products such as wire brushes, wire scrubbers, abrasive products with sandpaper surfaces and sponges. Use a soft cloth, liquid or cream detergent for cleaning.

UV-Resistant Surface: Special surface application that prevents ultraviolet radiation from sunlight from damaging the product surface.

Antibacterial Surface: Special surface coating that does not hold bacteria.

Strictly complying with above mentioned instructions will extend the life of your sink.

Impact-Resistant

The material is robust and resistant to impacts.

Stain-proof

Does not absorb food stains.

Durable

Preserves its first day appearance for many years.

Dirt-resistant

Dirt comes off easily.

Odour-free

Does not retain or transmit odour.

Highly resistant to heat.

Is not sensitive to heat effects.

Not harmful to human health

UV-resistant

Antibacterial

Special surface coating that does not hold or contain bacteria.
